

secure + anonymous

when you help employees feel better, they do better.
we start with emotions, not solutions to deliver a **“show me you care”**
communication strategy

we don't collect financial data

we aren't collecting financial data of any kind. A name, cell and email that's all we need. We assigned a personal ID # for tracking purposes..

name + cell + email = ID

employee emotions are safe with us

Completely anonymous for employees.

What they share with us stays with us.
We share information with employers in the aggregate or by ID #
